Consolidate Processes. Conquer Demand. Maximize Profits.

Tap into ibml to Uplevel Your BPO

Trends are shifting in the business world—in favor of your Business Process Outsourcing (BPO) document capture services.

Several industries are championing the move to centralized services, outsourcing all their data capture needs to lower their costs, maximize profits and enable remote working. **What does that mean for you?**

Now's the time to capitalize on the market shift and consolidate your data capture into one powerhouse infrastructure.

Send your ROI soaring and power-up your profits with ibml.

Decentralized Legacy Systems Hinder Growth

Your slow, disparate systems are holding you back from capitalizing on the tremendous market shift toward centralization. Whether this results in turning down clients or sporting a months-long backlog, relying on inferior data capture isn't the way out.

## ibml is the solution.

ibml FUSiON

The Power of Lightspeed Scanning

Harness the power of ultra-high-volume scanning and intelligent sorting capabilities. No other scanner combines speed and intelligence to send mission-critical data to your clients.

Dominate Your Backlog

At speeds of up to 714 pages per minute, you'll speed through your document backlog

One Scanner, Many Documents

Checks, remittance slips, letters, survey forms, oversized envelopes—the ibml Fusion does it all with intermixed feeding capabilities
Slash Operating Costs

Less pre- and post-scan sorting drastically reduces labor costs and requires fewer operators

Reach New Markets

Faster throughputs and unlimited duty cycles open up your business for larger projects with tighter turnarounds

Improve Uptime

The open-track design and LED indicators make it easy to find and fix stoppages quickly
